School Days are near

School Supplies are here

A good start means everything in any race. No student can get the proper start in his race for knowledge without the proper equipment. He must have supplies.

We carry the right supplies needed in both Hi and Grammar Schools and will get any specials required.

If any "Freshie" doesn't know where to find the headquarters for school supplies any upper-classman will gladly direct her or him to the proper place.

Harry Smith's

Locals and Personals

Will Mason of Dillon, Montana, has come to Campbell to live with his sister, Mrs. Eva M. Keesling.

Mr. and Mrs. L. J. Carboni returned last week from Los Angeles where they spent a short vacation.

Cambrian School will open Monday with Miss Goldsworthy, principal, and Miss Green, assistant.

Mrs. Winifred Fabinger Burk and little daughter are visiting at the Grandpa Fabinger home for a few weeks.

G. Ben Rodeck was home from Letterman hospital Sunday. He hopes to get his discharge before many moons.

Leland Lancaster and family of Santa Cruz spent the week-end here with his parents, Mr. and Mrs. J. W. Lancaster.

Mrs. W. E. Davis who was the guest of Mrs. A. I. Cramer for several weeks, returned to her home at Placerville, Friday.

Mrs. Mary Phelps Dunn arrived here from Seneca, Cal., Monday for a month's visit with her parents, Mr. and Mrs. E. E. Phelps of Sunnyvale.

Ira Beall has leased the former E. W. Ohlen ranch in Sunnyvale and will move there as soon as he finishes harvesting his prune crop near Gilroy.

Henry Gullick recently sold his 7½ acre orchard south of town to A. G. Peterson of Oakland who expects to erect a new home on the place soon.

Mr. and Mrs. Gilmore Duncan of Modesto, Mr. Marius Burnett and Miss Gertrude, of San Francisco were week-end guests at the F. E. Duncan home.

Grapes for jelly or grape juice. Phone orders promptly attended to. Phone Campbell 58F4. J. H. Bachman, Los Gatos Highway.

E. A. Barker was over from the San Joaquin the first of the week on business, going back to Merced Wednesday. He reports a big crop of peaches and figs.

H. W. Morton and family motored to the San Joaquin last week to visit relatives in the hot zone. Herold says our kind of hotness compares very favorably with that.

Elwood Sturtevant, who has been in Asiatic waters with Uncle Sam's fleet for some months, is expected home before long according to a letter received recently from him by Dad Sturtevant.

Dr. Styles and family of Piedmont, were guests of Dr. and Mrs. W. I. Merrill Sunday. Dr. Styles is quite taken with this part of the valley and hopes to find a suitable orchard home here soon.

Mr. and Mrs. E. J. W. Palmatier of Denver were guests of their uncle and aunt, Mr. and Mrs. E. Hancock over the week-end. Mr. Palmatier went on to Los Angeles the first of the week but his wife will remain for a visit.

Mr. J. F. Duncan is able to be back at his desk in the bank a part of each day. He declares that he never before knew what it was to be really sick until this last attack. Miss Bernice Baugh has returned to her work in San Jose.

Mrs. Knottlock and daughter, Miss Julia, who have been living with Mrs. Harriet Smith for the past two years left Friday for their home at Madison, Ohio. Miss Knottlock is an invalid and Dr. Merrill accompanied them to Oakland and saw them safely aboard their train.

N. A. Blake is making plans for the erection of a temporary house on his Fourth street property near the grammar school, the sale of the J. A. Green home being withdrawn. He will later build a modern bungalow and use the temporary house for a garage.

The association plant is still piling in the prunes at a record rate. Up to date the local house has received about 1400 tons and shipped out 17 cars. The past two weeks have been drying days made to order and the prune growers have been jolly well pleased with the world.

The attention of the members of the Country Woman's Club is again called to the meeting at the Library Monday when Miss Gertrude Rowell of the San Jose Normal will speak. Miss Rowell has made a special study and investigation of various phases of "Americanization", her subject for that afternoon.

Friends will be pleased to know that the Ralston Anson family will not leave the community as was surmised by some. They will move into the S. G. Nelson home for the winter, Mr. Nelson reserving rooms for himself and Adah. Mr. Anson is planning to build a new home just south of their present residence.

J. F. Allen, who is living on the R. G. Archibald ranch at the corner of Campbell Avenue and Los Gatos Road, has purchased a home in Rose Lawn district and will move there about the first of the month. Following his move there will be a regular procession, R. G. Archibald, W. T. Alexander and Mr. Fisher occupying the home vacated by the one before him.

Fruit Industry Gives Big Community Returns

The fruit and packing industry has never known a bigger or better season in its history so far as this valley and community are concerned. The growers have had their largest crops and the prices have been exceptionally high. The fruit workers in whatever capacity have never received such big wages and have never spent so liberally.

The canning season for fruits is practically closed tho a few late peaches will hold over into next week. With the finish of fresh fruits the J. C. Ainsley and Geo. E. Hyde plants will begin a run of canned prunes which is becoming a more and more popular dish. This work will run well toward Christmas.

The California Canneries Co. is running full steam ahead on tomatoes and will continue as long as the crop can.

A little inside information on what is doing in our local packing circles gives these comforting figures. Our three canneries, J. C. Ainsley Packing Co., California Canneries Co. and Geo. E. Hyde & Co. are completing a pack for this season of about 11,000,000 cans requiring 450 cars to move to market. By conservative estimates this big industry has paid to the growers of this community \$25,000,000 for their fruit. The fruit workers in the orchards and packing houses received about \$700,000 not counting the care of the orchards in winter season.

Club To Hold Initial Meeting Oct. 7

The Home and School Club will begin its meetings on Tuesday, Oct. 7th, at the grammar school.

This first meeting will be under the charge of the newly created department on a "Americanization", and Mrs. F. J. Keller of San Jose, chairman of that department for the Sixth District Congress of Mothers will talk on the work which it is hoped may be accomplished thru the Parent-Teacher organizations.

There will also be a social hour, with refreshments, in charge of the hospitality chairman. This will afford an opportunity for new members to become acquainted and for every one to have an opportunity to say "How-do-you-do" to the teachers.

The new president of the club, Mrs. I. P. Beal, has been very busy this summer getting in touch with the work and laying plans for the coming year. She is giving much time and earnest thought and endeavor to the club, and with the proper support from the women of the Campbell district the organization should make great strides in usefulness and value to the parents and to the school.

An earnest invitation is extended to all residents of the district, whether patrons of the school or not, to lend their active support to this cause which has for its sole object the betterment of social conditions, all tending to benefit our children.

Publicity Committee.

Plans For Big Pack At Local Cannery

Manager Sol Jacobs of the California Canneries Co. went to San Francisco Tuesday to get his new Studebaker six car. While there Mr. Jacobs also made arrangements with the head office to pack all the tomatoes for the company at this plant. This was a very beneficial move on his part as far as this community is concerned as it will insure as long a season on this vegetable as is possible. This crop is coming in steadily and all indications are for a large pack.

Mr. Jacobs also purchased two more canning machines for this work and they are being installed.

Several expansions and improvements have been made on the building. Mr. Jacobs having bot the N. A. Blake home will be on the ground the year round to oversee future enlargements.

Quality stationery at Harry's.

The Rev. H. L. Preston will be in his pulpit at the Congregational church next Sunday morning and speak on "The Challenge of the Sea." A goodly attendance is desired.

Mrs. James Donohue is home for a short stay with her parents, Mr. and Mrs. F. E. Duncan. Mr. Donohue has secured a position with the Joshua Hendy Works at Sunnyvale where they will make their home after next week.

The San Jose Bears will meet the Stockton stickers at Sodality Park Sunday afternoon when a battle royal is in store. The batteries are: Ollie Nino and Pratt for the Bears; Bill Steen, a coast leaguer, and McWharter for Stockton.

Topics in Brief

That watermelon season draweth to a close. Those griefs of getting one too green or over-ripe, or the ecstasies of finding one just right, will soon be no more for near a twelfth-month.

But the cantalope is still in its glory, at 5c "per" or thereabouts. Someone speaks of ice cream served in cantalope halves. Sounds very good!

And then that Persian melon! - - the most delectable flavor that ever tickled a palate! But to find one just right, that's the problem; yet it is worth the chance.

Grapes are plentiful in market; Isabella and Thomson Seedless. If you are thinking of grape jelly we can supply the fruit.

The beginning of school means lunches. Elkhorn Cheese is for sandwiches, and comes in pimiento, chili and plain flavors. This cheese is packed in tin, replacing the foil package which spoiled so easily. The price is 20c.

For lunches too, are those California Home Brand sweet pickles, also in tin. Though the canning of pickles is an idea which many people greet with astonishment, the product is nevertheless good, and is fast replacing the less sanitary bulk goods for retailing. These cans sell at 20c.

Something New. "The Subbubs are no fools." "Why? What did they do?" "Gave a lawn-mowing party and had the guests cut the grass."

Costly Knowledge. Caller - It's a good thing to teach your boy the value of money, as you are doing. Host - Well, I don't know. He used to behave for ten cents, but now he demands a quarter.

A Mistake. "Jaggs never opened his mouth when his wife was entertaining her club members the other night." "Oh, yes, he did. I saw him yawn twice."

Heard in a Store. First Shop Girl - Gee! I'd like to have been on the R-34 when she came across. Second Ditto (who had read the log) - They could have used you all right, Mame, when they wanted that gum chewed to mend the water jacket.

STOP! CALOMEL IS QUICKSILVER

It's mercury! Attacks the bones, salivates and makes you sick.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel. It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and cannot salivate. Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.—Adv.

Oakland.—Application for final distribution of the estate of the late William E. Dargie, Oakland publisher, who died February 10, 1911, leaving an estate valued at \$1,000,000, has been filed in the Superior Court by Thomas M. Dargie, a nephew. Mrs. Ermina Dargie, widow of the dead man, was awarded three-quarters of the estate by the Superior Court. Later the Supreme Court reversed the decision, awarding her one-half of the estate, amounting to \$33,119 and 50,000 shares of valuable stock. The nephew's petition covers the one-half retained through the Superior Court decision and as yet undistributed.

MURINE Rests, Refreshes, Soothes, Heals—Keep your Eyes Strong and Healthy. If they are Red, Itchy, or Burn, if Sore, Irritated, Inflamed or Granulated, use Murine often. Safe for Infant or Adult. At all Druggists. Write for Free Eye Book. Murine Eye Remedy Company, Chicago, U. S. A.

BAY'S DRY DOCKS HOLD LEVIATHANS

Facilities at Hunter's Point Measure Up to Needs of New Mexico Type.

San Francisco bay not only affords the finest anchorage on the Coast for the great dreadnaughts of the Pacific fleet, but also possesses dry-dock facilities capable of caring for the New Mexico, or any of her big sisters.

Although several of the ships which left for Puget Sound will be cared for at the Bremerton Navy Yard, it is likely that some of the units later will receive their dry-dock period here.

With a length of 1096 feet, a width of 120 feet and a depth over sill of 40 feet, the larger of the two docks at the Hunter's Point works of the Bethlehem Shipbuilding Corporation can easily accommodate the largest war vessel afloat.

Graving dock No. 2 has a length of 750 feet, a width of 103 feet and depth over sill of 28 feet. In addition there are three floating docks, ranging in length from 271 feet to 450 feet, with a maximum lifting capacity of 10,000 which would be capable of caring for smaller units of the fleet.

During the inspection by Secretary Daniels at the Hunter's Point plant it was pointed out that the large docks there eclipse in size the docks of the Pearl Harbor Navy Yard in the Hawaiian islands.

The approaches to Hunter's Point also conform to the draft of the big battleships, it is stated. In addition to former large transpacific liners, like the Mongolia and Manchuria, many war craft have been cared for at Hunter's Point in the past.

Secretary Daniels and Admiral Rodman, during the inspection, said they were impressed by Hunter's Point, not only as a site for a naval base, but also with the present dry-dock and repair facilities.

Of the sites he has inspected for a prospective naval base, Secretary Daniels has made the comment that they are splendid, but he has given no intimation as to what site—Hunter's Point, Alameda or Mare Island—will receive the plum.

Emphasizing the need for a great base here for the proper accommodation of the new fleet and the additions which are to come, Secretary Daniels says the merits of all will be considered upon his return to Washington, where he will confer with naval experts. He will then recommend to Congress an appropriation for the construction of the base.

AMERICA MAKES 15,811,000 PAIRS 'SILK' HOSE IN 1919

San Francisco.—Confronted with a record of 15,811,000 pairs of artificial silk stockings made in this country in 1919 from wood pulp and guaranteed free from splinters, silkworm growers in foreign countries, to which the hosiery has been exported, are solicitous about their footwear future. This 1919 consignment was valued at \$6,827,665.

American cordwood in its gossamer transformation is therefore rivaling the Oriental cocoon, and the ladies of many lands are happy. The silk fiber from wood pulp is used in manufacturing, as are the threads produced by the silkworm.

The artificial silk exported from the United States goes to all parts of the world. The industry has grown from \$857,000 in the fiscal year 1911 to its present volume. As indication of the extent to which the three chief natural silk-producing countries of the world are being invaded, the following shipments of "Yankee yarn-silk" stockings are noted: China, 6972 pairs; Italy, 188,100 pairs; Japan, 1032 pairs. The total value of artificial silk products exported this year is \$7,677,000.

DON'T GET RUN DOWN. Weak and miserable. If you have Kidney or Bladder trouble, Headache, Backache, Dizziness, Nervousness, and feel tired all over, get a package of MOTHER GRAY'S AROMATIC LEAF. It never fails. Sold by all Druggists or sent by mail for 50c. Sample sent FREE. Address, The Mother Gray Co., Le Roy, N. Y.—Adv.

Gallant Valuation. She—Whoever wants me, must take me at my face value. He—I'm sure that will be a fair estimate.

Cuticura for Pimples. To remove pimples and blackheads smear them with Cuticura Ointment. Wash off in five minutes with Cuticura Soap and hot water. Once clear keep your skin clear by using them for daily toilet purposes. Don't fail to include Cuticura Talcum.—Adv.

No Matter. "They have a great joke on Peter. By mistake he applied for a dog license instead of a marriage license." "Not so much of a mistake. That woman he's going to marry will lead him a dog's life."

It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

No humbug. Any corn, whether hard, soft or between the toes, will loosen right up and lift out, without a particle of pain or soreness.

This drug is called freezone and is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callus.

Put a few drops directly upon any tender, aching corn or callus. Instantly the soreness disappears and shortly the corn or callus will loosen and can be lifted off with the fingers.

This drug freezone doesn't eat out the corns or calluses, but shrivels them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist doesn't have freezone have him order it for you.—Adv.

A Voice From Sioux City, Iowa, says

PE-RU-NA Worth Its Weight In Gold

You cannot mistake the words of Mr. W. W. Northrup, of 908 Fourth Street, Sioux City, Iowa. He is enthusiastic about his present health and the merits of PE-RU-NA and wants everyone to know it. Here is a recent letter from him:—

"PE-RU-NA is worth its weight in gold and then some. I used to think it only a woman's remedy but have changed my mind. I had a cough, especially in the morning. After using half a bottle of PE-RU-NA I was much better. I would cough up chunks of phlegm and mucus, my eyes itched and bothered me. Judging from the symptoms given in your almanac it was catarrh. My stomach is in much better condition since using your medicine."

"Use this testimonial, if you wish. Don't hesitate to advertise the merits of PE-RU-NA." (Signed) W. W. NORTHROP.

There are thousands just like Mr. Northrup, skeptical at first but convinced by a trial of PE-RU-NA. DON'T BE AN UNBELIEVER. If your trouble is of a catarrhal nature, try PE-RU-NA, then tell your friends. It is fine after an attack of grip or Spanish Flu.

Sold Everywhere Tablets or Liquid FOR CATARRH and CATARRHAL CONDITIONS

IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Oskaloosa, Iowa.—"For years I was simply in misery from a weakness and

awful pains—and nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will help others if they will give it a fair trial."

—Mrs. LIZZIE COURTNEY, 108 8th Ave., West, Oskaloosa, Iowa.

Why will women drag along from day to day, year in and year out, suffering such misery as did Mrs. Courtney, when such letters as this are continually being published. Every woman who suffers from displacements, irregularities, inflammation, ulceration, backache, nervousness, or who is passing through the Change of Life should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

MICKIE SAYS

Taft's Outline Continued

Lawed nation will be boycotted by all the other members of the League and will find itself cut off from both business and social communication with the rest of the world.

How It Will Prevent Wars.

It is not claimed that the League of Nations will do away with war altogether. Every possible provision that human intelligence can devise will be made to settle international disputes peacefully. But should all these measures fail and two nations go to war, this is what will happen:

If both parties to the dispute have observed the rules of the League, the other nations will stand back and let them fight it out. War under such circumstances is difficult to imagine, however, because before the angry nations will be allowed to fight in accordance with the rules of the League, so much time must elapse that in all probability their anger will cool and they will reach an amicable understanding.

What we have to fear is that some nation will go to war in defiance of the League, and every precaution has been taken to suppress such a nation by the immediate use of the united power of the other nations. If international boycott failed to bring her to terms she would have to face a combined international army and navy. The founders of the League believe that the mere possibility of such a situation will prevent any nation from violating its agreement. Does anyone think that Germany would have begun war five years ago if she had known that nearly all the other great powers would combine against her?

Doing the World's Work.

In addition to settling international disputes peacefully the League of Nations will provide means for doing much of the world's work more systematically and effectively than can be done now when each nation is working only for itself. The people you know best and like best are those who work with you on the same job. It will be the same way with the nations of the future. The more they work together, the sooner they will come to understand and like each other.

For example, the League will establish an international organization for the bettering of labor conditions in different countries, for the protection of women and children and the native inhabitants of civilized and semi-civilized countries. One of Germany's greatest crimes has been her barbarous treatment of the helpless people in some of her colonies. One of the chief tasks of the League will be to look after peoples that are not strong enough to protect themselves. The League will appoint commissions to take charge of various international undertakings so that they may be carried on, not for the benefit of any one nation, but for the benefit of the whole world. Provision will be made for promotion of fair and equal trade conditions. These are only a few of the benefits the world will derive from the League. As time goes on we shall find more and more tasks at which the nations can work in common and a greater number of opportunities to remove causes which stir up jealousies and animosities between races and peoples.

Objections Answered.

Of course we cannot hope to make the great changes such as the League of Nations will bring about without opposition. Fortunately the war has taught us the great advantages of international co-operation. It was only by good team work that the free liberty loving nations were able to whip Germany.

The treaty which the United States Senate is debating obligates the members of the proposed League to protect one another against attack from enemies outside their own boundaries bent upon conquest. Although this agreement (Article X of the Covenant) is vital to any arrangement which seeks to prevent war, it has been attacked on the ground that it would draw the United States into wars in various parts of the world and force us to send our boys to fight in quarrels which did not concern us.

We should remember, however, that the main purpose of Article X is to frighten nations tempted to wars of conquest from yielding to the temptation, by the certainty that they will be crushed if they begin such a war by a universal boycott and a union of forces of the world against them. If a big war breaks out again, the United States will be forced to take part in it whether we have a League of Nations or not. We tried hard enough to keep out of the war with Germany but found we couldn't.

A little war contrary to the League rules could be handled by the powers close at hand. Certainly it would not be necessary to send American troops to suppress an uprising in the Balkans when prompt action by the armies of Italy or some other nearby powerful nation could suppress the fracas before American troops could even get started.

Great Gain for Small Loss.

We had to make many sacrifices to win the last war and we made them willingly because we knew they were worth while. It will be the same in a smaller degree with a League of Nations. When men form a business partnership each one has to make concessions to the views and opinions of the other members of the firm. When we enter the League of Nations we may have to give up certain privileges, but the losses will be small compared with the profits.

The United States will not have to sacrifice her independence or right to make her own decisions.

THE KING OF BELGIUM is coming to San Francisco.—News

The county supervisors want to make a showing for his reception but are rather at a loss just how to act. And they should worry. In Albert's pre-regnant days, he traveled about the United States considerable and served as a reporter on a New York newspaper. He probably is quite familiar with the clay and mould of supervisors. Maybe he has the real dope on some of the Frisco dads. They should be a bit fussed up.

CALIFORNIA Has warehouses filled with beans and is shipping prunes east by the carloads, while the government is shipping both prunes and beans to California. There is a screw loose somewhere in the business management of affairs at Washington.—St. Helena Star
If it were only a loose screw, that could easily be remedied, but some of the official drive wheels are out of line and already the voters are looking about for a superintendent who will stay on the job.

ACCORDING to astronomers, those who live near the equator travel almost 9,000,000 miles on the earth's axis and nearly 600,000,000 miles around the sun annually, and with the sun are doing another 400,000,000 miles. With a few of these flying stunts bred in the race since Heck was a pup, is it any wonder that a few of our more (?) advanced neighbors have developed a sort of speed mania.

OUR GOVERNMENT is willing to take the Czecho-Slovak troops home from Siberia at the request of the Paris council, but as for bringing our own boys home from Siberia at the request of the American people, that is a horse of another color.—Ex. But that will also be remedied when this ship of state gets a new captain next year.

AS predicted long ago, let Mexico alone in her internal troubles and she would soon hang herself. The country is now letting the mainstay of its growth and progress, the public schools, close their doors. The H. C. L. has surely wrought havoc when a country can't afford to educate its children.

Locals and Personals Some Egg Plant

Marion and Ada Smith will return the last of the week from their visit at Lucia.

Miss Zella Richey and cousin, F. A. Binkerd, went to Capitola, Wednesday to remain for a week.

The W. C. T. U. will meet with Mrs. Newcomb, 295 Campbell avenue, Wednesday, Oct. 1st, at 2:30 p. m.

Mrs. Lucy Smith enjoyed a visit with her aunt, Mrs. L. A. Johnson of Deming, N. M., who spent part of last week here.

Gordon Smith and James Fablinger left Wednesday evening on a hike to Mt. Hamilton, packing their blankets and easels.

Mrs. C. L. Watson was operated upon for appendicitis Wednesday at O'Connor Sanitarium and at last report was doing nicely.

Donald McQueen has taken the position of clerk and truck driver at the Farmers Union store, and is able to be at home with his family.

Mr. and Mrs. J. F. Duncan and son, John, went to Pacific Grove, Wednesday, to spend the rest of the week while Mr. Duncan is recuperating.

Grapes for jelly or grape juice. Phone orders promptly attended to. Phone Campbell 58F4. J. H. Bachman, Los Gatos Highway

The many friends of Mrs. S. A. Moulton will be glad to hear of her continued improvement from her recent operation. She is at her home on Johnson Avenue and is gaining steadily.

Announcement of appointments to Methodist pastorates for the San Francisco district were made at the conference at Santa Cruz Tuesday. The Rev. J. O. Duncan was returned to the Campbell church and Rev. W. H. Lloyd to the Centella church in San Jose.

Mr. C. H. Antrim will come up from Fresno this week and take Mrs. Antrim and daughter back with him. They have been making an extended visit here while waiting for their recently purchased home to be vacated, and into which they will move upon their return.

Mrs. H. L. Preston came home from Capitola last week and attended the Woman's Board of Missions of the Pacific conference at San Francisco. Hartwell returned Saturday to be present at the opening of school, while Mr. Preston is enjoying another weeks rest at that resort. His sister, Mrs. J. C. Nutting, went over Wednesday to spend a few days with him.

The council, the chief governing body of the League, cannot take action without unanimous decision of its members and since the United States will have a representative in the Council our interest will be protected there. We hear it said that the League is formed for the benefit of Great Britain or Japan or some other one nation. This is not true. All the nations will gain by it, not only the great nations such as the United States, Great Britain, France, Japan and Italy, but the little nations which in the past have been oppressed by their big neighbors. The international court will give an opportunity for the settlement of old grievances which have long troubled the peoples of the world.

It has been said that the League will interfere with the Monroe Doctrine, but the League Covenant expressly protects this Doctrine. In fact, through the Covenant the Monroe Doctrine receives recognition throughout the world and its principles become forever established.

Mr. Al. Murdock, who recently sold his hardware business in San Francisco, has purchased the Gardner tract on Rincon avenue.

He has three men busy erecting coops and runs for an up-to-the-minute poultry farm. He plans to run his plant on a large scale furnishing the market with eggs from 6000 white leghorn hens.

Mr. Murdock was formerly in the egg business near Fresno so it is no new enterprise for him. He believes that we have here an ideal climate for the chicken business and is going to do his best to demonstrate his faith in this locality.

Many others have made money here in that industry and there is no question but what Mr. Murdock will make good. At present he and his wife are living with Mr. and Mrs. I. H. Grim on Hamilton avenue.

Dancing Party

The Misses Irene and Henrietta Toles were hostesses to about forty of their school friends Saturday evening at a dancing party in Odd Fellows hall.

Dainty programs were used and excellent music was provided by a young lady from San Jose. Ice cream and cake were served and altogether the young people had a thoroughly good time, as this was their first party in a hall.

Mesdames C. W. and Dodd Toles chaperoned the party.

Fire is reported destroying the Big Basin park.

Miss Adah Nelson, who is suffering from an attack of heart trouble, is improving slowly but will not be able to take up her school work just now.

Chas. Berry has received a wire that his son, Millard, will arrive on a troop train at Oakland early Saturday morning. Mr. and Mrs. Berry and Clifford will motor up that morning to meet their homecoming veteran.

Mrs. M. L. Knappen of Rosebud, Mont., and son, James, will arrive this week for a visit with her sister, Mrs. H. C. Smith. James is a graduate of the Bismarck, N. D., high school and will enter Stanford next week.

The Pundita Circle held its first meeting at the home of Mrs. C. H. Davidson Wednesday. Plans for Good Cheer Club work were made and Mrs. Strang, visiting nurse of the San Jose Good Club, gave an interesting talk on the work there. The next meeting will be held at the B. O. Curry home on October 9th when Mrs. M. E. Purmort will give a talk on New Orleans.

Benjamin Austin and family arrived last week from Simcoe, Ontario, Canada, and are making their home with his aunt, Mrs. Abi Butler on north first street. Mr. Austin is a carpenter and has found ready employment, while the oldest daughter, Miss Margaret, is a bookkeeper at Hale's. Miss Marion entered the eighth grade of the grammar school and Miss Merle will be a high school student.

Fred Mau, of Mt. View, who recently returned from France with his division, has taken a position with B. O. Curry and will learn the real estate and insurance business from the ground up. Needless to say the instruction under Mr. Curry will be thoro and of the best, for he has built up here a most enviable business in his line. Mr. Mau is a congenial sort and should make good in his new field.

SHE UTTERED NO CRITICISM

But Many Will See Deep Significance in That Kiss Bestowed by Minister's Wife.

Now, everyone knows that the minister's wife must not say harsh things about anyone, no matter how she thinks. Also that though she be forced to listen to criticism she herself must not give any. The other evening an Indianapolis parsonage woman was sitting on her front porch, when one of the young girls of her husband's congregation came to call. Hardly had she settled herself comfortably before the young miss began to condemn vigorously a very parsimonious member of the church.

"He wouldn't give a cent to recarpeting the parsonage," stormed the visitor, "yet he had plenty of money to buy himself a new seven-passenger touring car. I just hope that every time he starts out in it he'll have a puncture."

The minister's wife had only that morning spent three hard hours mending the old carpet. She didn't say a word of reproach—merely looked at the young girl a minute and then went across the veranda and kissed her cheek.—Indianapolis News.

Ticklish Bit of Tunneling.

A very interesting bit of tunneling was recently done on the Fourteenth street tube under the East river, New York. The heading was being run in rock and at one point test holes showed a thickness of only eight inches of sound dry rock above the lining which the top of the tunnel was to run. As the tunnel was being driven without the use of compressed air it was decided to drop the upper heading four feet until this thin cover of rock was passed. The cast iron lining was set in place at each side of this section and then the rock was removed very carefully by using a great many holes each loaded with about one-eighth of a stick of dynamite. As each bit of rock was removed the arch of the tunnel lining was set in place. By this means the dangerous section was tunneled without breaking through the thin shell.—Scientific American.

His Desire.

Last autumn Roland was much in love with his new teacher, and tried to prove his affection by doing many errands for her. One of them was the hauling of the fertilizer from his father's barn to her flower garden. This spring Roland became interested in a victory garden and started one. One day he journeyed to the home of his last term teacher, told her of his garden and then ended the conversation with, "Do you remember that fertilizer I gave you last fall? Well, I'd like to have it back now for my own garden."

Christian Science Services

In Odd Fellows' Hall every Sunday morning, at 11 o'clock. Sunday, September 28th. Subject:—"Reality." You are cordially invited. Sunday School at 9:45. Wednesday evening meeting last of each month at 7:30.

Congregational Church Notes

All church services as usual, Sunday School at 9:45. Morning Worship 11: A. M. Christian Endeavor at 6:30. Evening Service at 7:30. You have a cordial invitation to attend. Rev. H. L. Preston, Pastor

EATON'S

A sweet young thing in our community has a new scheme for beautifying her complexion. Here it is: Get one pot of rouge and one rabbit's foot. Bury them two miles from home and walk out and back once a day, to see if they are still there. Nothing like exercise, girls. —Turlock Tribune.
